

From the Director's Desk

June 24, 2022!! This was the day so many of us had been hoping for. It was a day that those of us who prayed, supported, and fought for, thought may never come. The lives of the unborn were finally recognized! Since that day, the SHARE Center has received increased calls from those desperately seeking abortion and being told they can no longer receive them in Texas. In fact, as many of you may have heard, one of the abortion clinics in San Antonio closed down and moved out of state. Praise God! In preparation for this day, your support helped provide a brand new website with the most updated medical information for those men and women seeking answers about abortion, the abortion pill, and a newer treatment, abortion pill reversal. I encourage you to visit the new website you helped make possible at www.bulverdepregnancy.org.

In addition, your generosity helped support our nurse as she received training to provide ultrasounds so we now have two nurses available to provide this important way for parents to hear their child's heartbeat. Below you'll see ultrasounds of 9 and 13-week-old babies and our newest little clients. Thank you for your prayers and continued support that help to make moments like this possible!
