

A Story of Hope

"My husband and I already had a 2-year-old, and we were just starting to feel like we were getting into the swing of things, as new parents, when we found out I was pregnant again. We were thrown for a loop. I honestly had no idea how we would adjust our lives for a new baby. God forbid, I even considered abortion. I know in my heart I never would've gone through with it, but I just couldn't imagine having another child, especially so soon. I decided we needed an official test and found The SHARE Center. Nurse Amy spoke with us and helped us decide, even more, how there was no way we wouldn't have our angel, no matter how hard it would be. Amy told us they offered all kinds of parenting classes, allowing me to earn points towards their boutique that included everything you could need for a baby. My first thought was, 'How boring. Why would I voluntarily sign up for parenting classes since I already have a toddler?' Well, after having a very difficult first trimester, I decided to give it a try. I am so glad I did! My experience became so much more than just taking parenting classes. I developed some long-lasting friendships and relationships with the wonderful women involved, and the perks they provide, such as complimentary diapers and wipes, just for joining group parenting classes, are just a bonus! My daughter and I look forward to our appointment every week. I can't thank them enough for being such a positive addition to our lives. My daughter runs in to play with the toys and to see our friends, as if it's our second home. I would recommend The SHARE Center to anyone because they have truly helped me through some of the hardest times in my life."

Our SHARE Center family welcomed this sweet couple's newest addition earlier this year! We enjoy seeing them for classes and storytime every week! This is just one family where your support and prayers have made a difference!
